CATALOG 2021

SAGE 50033 | PPAI 110772 | ASI 61966 | UPIC HUBPEN

Last year was absolutely one of the most challenging years that the promo industry has ever seen. It was also a year of pivot and innovation and many moments that I am proud to remember, including our #KEEPTHEPEN campaign that spread like wildfire throughout the industry; our own Hub Director of Sales Melissa Bettua hosting our incredibly well-received virtual trade shows; the introduction of our first antimicrobial pens; the Javalina Pure and the Purity; and most importantly being again voted the #1 writing instrument in the industry.

This year as we begin fresh in 2021 you can expect further innovation from the Hub team! As you flip through our digital catalog you will experience great new products including our first sanitizer pen, and an expansion of the Pure line in crisp new colors, as well as our bestselling pens now also available in white to allow for grand full-color imprints. We will also have some new tools including a customizable digital catalog for you to share with your customers. When the world settles down, and things are back to normal we would love to host you in PERSON in our new beautiful showroom in Braintree MA. Until then, please accept our virtual hug and a huge thank you to you our wonderful customers for choosing Hub again and again.

# Anti-Fraud Ink Faves

## Available in blank ink only

Our anti-fraud ink adheres to ISO 12757-2 standards and resists UV fading, water, eraser, ethanol, bleaching, hydrochloric acid, and ammonium hydroxide. This helps prevent check washing, document fraud, and alterations as the anti-fraud ink becomes trapped within the paper fibers.
